## ABOUT COMPANY

Insta Polyplast is a leading manufacturer of premium-quality plastic packaging solutions, specializing in HDPE and PP Plastic Bottles, CO-EX Bottles, and Caps & Closures.

Established in 2015 in Bhavnagar, we have grown with a vision of delivering innovation and reliability in plastic packaging. With the launch of our Ankleshwar facility in 2019, we have further strengthened our manufacturing capabilities in blow and injection moulding technologies.

## SECTORS WE SERVE

FMCG

Pharma

Agro

Cosmetics

Automotive

### Mission

To build a high-quality, customer-focused organization committed to promoting health, safety, and well-being through precise, sustainable, and economically viable solutions –delivered responsibly in a clean, safe, and rewarding work environment.

### Vision

To become a global leader in sustainable plastic packaging solutions by expanding into new markets, driving innovation, and delivering high-impact, customer-centric results with extraordinary speed, flexibility, operational excellence, and long-term value.

# QUALITY ASSURANCE & EXCELLENCE

We have established an in-house good quality testing facility, and that is handled by highly experienced quality professionals.

Their role is to check products on their performance, finishing standards and operational efficiency and ensure that only defect-free products are delivered to our valued clients.

***“From Raw Material To Final Packaging, Every Step Matters.”***

## In-house testing unit includes:

- Be sure Raw Material Verification – by using only trusted brands locally and ensures consistency & purity before use.
- In process Inspections - Automated & manual checks for weight, wall thickness, wall dimensions and surface finish.

## Assurance:

A clean & clear production unit ensures that every bottle meets:

- Defect free
- Durable
- Leak resistance
- Finish

## Testing:

Each bottle undergoes pressure test or leak test, stability test also each batch undergoes drop test, sealing test for reliability

## Visual & Dimension Checks:

Inspection for clarity, shape, formity, colour consistency & defects

***“QUALITY IS NOT CHECKED IN – IT’S BUILT IN.”***

We follow globally recognized standards to ensure consistent quality, product safety, and sustainable practices. Our manufacturing processes prioritize compliant materials, recyclable resources, minimal waste, and eco-friendly operations. We are committed to responsible production with zero-defect delivery and reduced environmental impact.

## CERTIFICATIONS FOR EXCELLENCE

- ISO 9001:2015 – Quality Management Certified
- Food Grade & BPA - Free Compliant Materials
- Sustainability – Recyclable materials & reduced waste protocol
- ZED – Zero Defect, Zero Effect initiative
- EPR – Extended Producer Responsibility

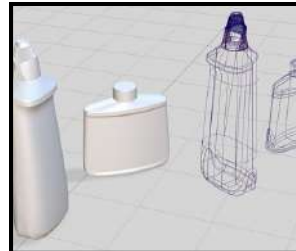

# FACILITY

***Our comprehensive facility offers end-to-end solutions — from design to development.***

Equipped with state-of-the-art machinery and driven by precision engineering, we ensure high-quality, efficient, and scalable production. Every stage is handled with expert care to deliver excellence in every product.

## Capabilities Include:

- Design & Prototyping
- Manufacturing
  - Blow Moulding
  - Injection Moulding
    - (Caps, Inner Plugs, Measuring Cups)
  - Multilayer Blow Moulding
    - (Co-Ex - up to 4 layers)
- Printing Facility
  - Available for sizes ranging from 5ml to 5L

## GROUP OF COMPANIES

### **Insta Polyplast**

Insta Polyplast manufactures high-quality HDPE and PP bottles using state-of-the-art blow moulding technology. Our advanced facility ensures strength, durability, and consistency in every bottle to various industrial packaging needs.

### **Terrapack Global Pvt. Ltd.**

Terrapack Global offers premium PET bottles manufactured through advanced single-stage ISBM (Injection Stretch Blow Moulding) technology. We focus on delivering crystal-clear, lightweight, and durable bottles suited for high-end packaging requirements.

### **Aanvi Polyplast**

Aanvi Polyplast specializes in precision-made caps and closures. With a modern injection moulding setup, we deliver products that ensure leak-proof sealing, perfect fit, superior quality, excellent durability, and high production efficiency for a wide range of container types.

# WHAT SETS US **APART**

**INNOVATION:** Continuous innovation in rigid plastic packaging processes drives us to develop the next generation of plastic products.

**FLEXIBILITY:** Our plastic bottles are manufactured with flexible features to suit a variety of products such as cosmetics, pharmaceuticals, lubricants, and more.

**TECHNOLOGY:** We use cutting-edge software and advanced machinery to produce premium plastic products that meet specific customer needs.

**SUSTAINABILITY:** We are committed to minimizing waste and promoting sustainable practices in packaging development for a healthier environment.

**CAPABILITIES:** With years of experience, we deliver high-quality plastic packaging solutions tailored to diverse industry requirements.
